### Features

---

#### Optional wireless rear speakers for Sony HT-A7000/A5000 Soundbar

Experience cinematic surround sound taken to a new level with the SA-RS3S wireless rear speakers<sup>1</sup>. These speakers are specifically designed to seamlessly pair with Sony's HT-A7000 or HT-A5000 Soundbar to complete the home theater experience.

#### Connects wirelessly<sup>1</sup>

The SA-RS3S wireless rear speakers are free of wires for ease of use and peace of mind. Rather, these speakers make a wireless connection with the HT-A7000 or HT-A5000 Soundbar so that the speakers can be placed in the most desirable locations without the hassle or worry that long, winding wires bring.<sup>1</sup>

#### Wall mount-capable

The SA-RS3S rear speakers easily mount to the wall if desired, giving your home theater setup a clean look and feel.

#### Easy to set up

The SA-RS3S rear speakers easily mount to the wall if desired, giving your home theater setup a clean look and feel.

#### 100W<sup>2</sup> of power to enhance sound

Easily and seamlessly enhance your surround sound experience with an additional 100W (50W x2) added to your system with these dual rear speakers.<sup>2</sup>

### **Omnidirectional block design**

Complete your surround sound experience and tailor audio to your space with these free-standing or wall-mountable rear speakers.

### **Clear, expansive sound**

Two-way speakers feature both a woofer and a tweeter for a rich, expansive, and clear sound.
